DETAILED ACTION

Reasons For Allowance

1. An amendment was received from the applicant on 7/20/2007.
2. The drawings received on 7/20/2007 are acceptable.
3. Claims 1, 5-7, 10-13, 15, 18-20, 23-32, 35-37 and 39-42 are amended.
4. Claims 1-43 are allowed.
5. The following is an examiner's statement of reasons for allowance: The method and system for controlling a vessel mooring system as claimed by applicant is not shown or suggested in the prior art. Specifically, the prior art does not disclose a method or system of controlling a vessel mooring system, which includes at least one mooring robot for releasably fastening a vessel floating at the surface of a body of water to a terminal, with the mooring robot including an attractive force attachment element displaceably engaged to a base structure of the mooring robot with the base structure affixed to the terminal, and with the attractive force attachment element being releasably engagable with a vessel surface for making fast the vessel with the terminal, and the mooring robot providing active translational movement of the attractive force attachment element relative to the base structure to allow the movement of a moored vessel in an athwartship and/or longitudinal direction, and including measuring and monitoring the holding capacity dependent on the attractive force, as explicitly recited by applicant.

Conclusion

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
